Joymongal, Shibpur, Narsingdi  
-1620, Bangladesh.

## SUMMARY

Experienced and highly skilled welder with over 8 years of expertise in welding techniques, including 6G, 4G, and TIG welding. Proven track record of working in both large-scale and industrial settings, with hands-on experience in Korea and Bangladesh. Adept at working in high-pressure environments, meeting tight deadlines, and ensuring the highest quality of work, seeking to leverage extensive welding experience in a new opportunity in Australia.

## Education

**Secondary School Certificate**  
Shibpur Pilot High School, Narsingdi.  
Passing Year : 2000

## Professional Expertise

- Welding Techniques
- Welding Codes & Standards
- Welding Equipment Expertise
- Materials
- Welding Equipment
- Health and Safety
- Inventory management
- Problem Solving
- Team Collaboration
- Efficient time management
- Attention to detail
- Time Management
- Communication Skill
- Maintenance & Equipment Care

## Language

### English

- Reading 75%
- Writing 70%
- Listening 65%
- Speaking 55%

## Working Experience

### Welder

Samheung Electric Power Co., Ltd. – Iraq.

May 2020 – Jul 2020

- Performed high-precision welding tasks, maintaining high-quality standards for the construction of power plants.
- Worked with various metals and welding techniques, including TIG and MIG.
- Conducted safety checks and adhered to strict safety standards during all welding operations.
- Collaborated with engineers and technicians to ensure the completion of projects on time.

### 4G TIG Welder

Daeshin Plant Construction Co., Ltd. – Iraq.

Dec 2018 – May 2020

- Specialized in 4G TIG welding for plant construction, ensuring durable and high-quality welds for structural components.
- Maintained equipment and performed routine maintenance to ensure operational efficiency.
- Worked on diverse welding projects in various positions, ensuring structural integrity.

### 6G Welder

Chittagong Urea Fertilizer Ltd. – Chittagong, Bangladesh.

Jun 2002 – Dec 2003

- Engaged in 6G welding of industrial components for the fertilizer plant, producing strong and precise welds.
- Followed all safety guidelines and quality control procedures to ensure the highest standards of work.
- Worked with a range of welding equipment and materials, including carbon steel and stainless steel.

### 4G Welder

The Civil Engineers Ltd. – Dhaka, Bangladesh.

Jan 2000 – Dec 2001

- Carried out welding tasks for civil engineering projects, including structural steel welding and pipe welding.
- Ensured adherence to all safety protocols and welding codes.
- Worked efficiently to meet project deadlines and deliver quality workmanship.
